

aquatherm Prefabrication

Advantages of aquatherm prefabrication:

- Consistent quality by industrial prefabrication “Made in Germany”.
- Certified ISO 9001/ISO 14001/ISO 50001.
- Over 40 years of proven quality and experience.
- High, tested quality with a 10 years warranty.
- Time and cost savings due to prefab under factory conditions.
- Development of customized solutions.
- Provision of CAD and planning data. 3D drawings minimize design errors.
- Quick and easy installation into existing systems. Reduce dead time and low tooling costs on site.
- Weight reduction due to the use of PP-R; easier handling during transport and on site.
- Recyclable and durable.
- Resistance to corrosion, chemicals and aggressive media.
- Pre-insulated prefabrication available.

Prefab: Customized solutions
